THERMOCHIMICA ACTA, VOLUME 128 (1988)

SUBJECT INDEX

Acetoacetanilidehydrazone complexes,
thermodynamic and spectrophotometric studies of acetoacetanilidehydrazone complexes of Cu(II), Ni(II) and Co(II) metal ions (Abdel Moez et al.) 81

Acetylpyridines,
thermogravimetric studies on the addition compounds of cobalt and nickel dithiophosphinates with picolines and acetylpyridines (Mukherjee et al.) 301

AgBr,
theoretical contribution of solvation of AgBr in some organic solvents at 25°C (Gomaa) 99

Aliphatic amines,
mass spectral studies on the thermal desorption of aliphatic amines from the surface of Y-type zeolites (Jasra et al.) 115

Alkanone–chloroalkane,
thermodynamics of binary mixtures of alkanone–chloroalkane. I. Heat of mixing of n-alkanone–1-chlorohexadecane mixtures at 298.15 K (García et al.) 209

n-Alkanone–1-chlorohexadecane,
thermodynamics of binary mixtures of alkanone–chloroalkane. I. Heat of mixing of n-alkanone–1-chlorohexadecane mixtures at 298.15 K (García et al.) 209

Amidic ligands,
activation energy studies on complexes of uranyl fluoride with amidic ligands (Carstens et al.) 237

Atomic absorption cold vapour technique,
a comparative study of a kinetic–thermometric method and the atomic absorption cold vapour technique for determination of mercury traces and ultratraces (Mateo et al.) 21

Automatic thermometric titrations,
VALTER, a computing program for automatic thermometric titrations (Cerdá et al.) 9

Cadmium chloride,
thermal decomposition of solid complexes of cadmium chloride with substituted pyridines (Masuda et al.) 225

Cesium metaborate,
the thermodynamic properties of cesium metaborate $CsBO_2$ from 5 to 1000 K (Cordfunke et al.) 31

Cobalt amino acid complexes,
the behaviour of some cobalt, nickel and copper amino acid complexes at different temperatures (Masoud et al.) 75

Cobalt dithiophosphinate,
thermogravimetric studies on the addition compounds of cobalt and nickel dithiophosphinates with picolines and acetylpyridines (Mukherjee et al.) 301

Complexing ability of pesticides,
complexing ability of pesticides and related compounds. Thermodynamic parameters for the formation of H^+, Na^+ and Ca^{2+} complexes with 2,4-dichlorophenoxyacetate in aqueous solution at different temperatures and ionic strengths (Casale et al.) 261

Copper amino acid complexes,
the behaviour of some cobalt, nickel and copper amino acid complexes at different temperatures (Masoud et al.) 75

Cured epoxy resins,
kinetics of thermal degradation of cured epoxy resins based on triglycidyl-*p*-aminophenol (Patel et al.) 149

Cyano compounds,
thermal analysis of some cyano compounds. Part II. Thermal behaviour of mixed $KLnFe(CN)_6 \cdot 4H_2O$ (Ln = La(III), Ce(III), Nd(III)) (De Marco) 127

Degree of transformation,
interpretation of the dependence of the effective values of kinetic parameters on the degree of transformation (Vyazovkin, Lesnikovich) 69

Desorption of aliphatic amines,
mass spectral studies on the thermal desorption of aliphatic amines from the surface of Y-type zeolites (Jasra et al.) 115

2,4-Dichlorophenoxyacetate,
complexing ability of pesticides and related compounds. Thermodynamic parameters for the formation of H^+, Na^+ and Ca^{2+} complexes with 2,4-dichlorophenoxyacetate in aqueous solution at different temperatures and ionic strengths (Casale et al.) 261

Glass transition of glycerol,
quasi-static study of the glass transition of glycerol by DSC (Claudy et al.) 251

Guar gum esters,
kinetic study of thermal degradation of guar gum esters (Patel et al.) 141

Irreversible complex chemical reactions,
analysis of irreversible complex chemical reactions and some observations on their overall activation energy (Agrawal) 185

Isomeric interplay,
thermodynamic and kinetic consequences of isomeric interplay (Slanina) 157

Iodine,
comparative study of the redox reactions between iodine and phenol derivatives, through correlation between thermal analysis and thermodynamic calculations from kinetic data (Zayed, Nour El-Dien) 105

Iron(II) sulphate heptahydrate,
solid-state hydrolysis of iron(II) sulphate heptahydrate (Mahapatra, Prasad) 305

Isoconversional calculation,
estimation of the pre-exponential factor in the isoconversional calculation of effective kinetic parameters (Vyazovkin, Lesnikovich) 297

Kinetic–thermometric method,
a comparative study of a kinetic–thermometric method and the atomic absorption cold vapour technique for determination of mercury traces and ultratraces (Mateo et al.) 21

$KLnFe(CN)_6 \cdot 4H_2O$ (Ln = La(III), Ce(III), Nd(III)),
thermal analysis of some cyano compounds. Part II. Thermal behaviour of mixed $KLnFe(CN)_6 \cdot 4H_2O$ (Ln = La(III), Ce(III), Nd(III)) (De Marco) 127

Malato-aquo complex of thallium(III),
thermal decomposition of the malato-aquo complex of thallium(III): the mechanism of thermal dehydration of thallium(III) malate trihydrate (Khadikar, Sapre) 55

Mercury traces and ultratraces
a comparative study of a kinetic–thermometric method and the atomic absorption cold vapour technique for determination of mercury traces and ultratraces (Mateo et al.) 21

Nagyagite,
the thermal decomposition of nagyagite (Botto, Schalamuk) 311

Nickel amino acid complexes,
the behaviour of some cobalt, nickel and copper amino acid complexes at different temperatures (Masoud et al.) 75

Nickel dithiophosphinate,
thermogravimetric studies on the addition compounds of cobalt and nickel dithiophosphinates with picolines and acetylpyridines (Mukherjee et al.) 301

Nucleation in glasses,
a new parameter to evaluate nucleation in glasses from DTA curves (Branda et al.) 39

n-Octane,
vapour–liquid equilibrium and solid–liquid equilibrium in the system formed by 1-octanol and n-octane (Plesnar et al.) 93

1-Octanol,
vapour–liquid equilibrium and solid–liquid equilibrium in the system formed by 1-octanol and n-octane (Plesnar et al.) 93

Phenol derivatives,
comparative study of the redox reactions between iodine and phenol derivatives, through correlation between thermal analysis and thermodynamic calculations from kinetic data (Zayed, Nour El-Dien) 105

Picolines,
thermogravimetric studies on the addition compounds of cobalt and nickel dithiophosphinates with picolines and acetylpyridines (Mukherjee et al.) 301

Polyethylene crystallization,
designed experiment for polyethylene crystallization by DSC (Wilfong, Kotnour) 215

Redox reactions,
comparative study of the redox reactions between iodine and phenol derivatives, through correlation between thermal analysis and thermodynamic calculations from kinetic data (Zayed, Nour El-Dien) 105

Ribonuclease A,
biological thermodynamic data for the calibration of differential scanning calorimeters: heat capacity data on the unfolding transition of ribonuclease A in solution (Schwarz, Kirchhoff) 267

$[R_3S]^+$ cation,
kinetics of thermal decomposition of the tetracyano complexes of some transition metals containing the $[R_3S]^+$ cation (Györyová, Skoršepa) 1

"Shape factors",
use of the "shape factors" as an empirical method to determine the actual characteristic temperatures of binary phase diagrams by differential scanning calorimetry (Courchinoux et al.) 45

Solid–liquid equilibrium,
vapour–liquid equilibrium and solid–liquid equilibrium in the system formed by 1-octanol and n-octane (Plesnar et al.) 93
Solid-state hydrolysis,
solid-state hydrolysis of iron(II) sulphate heptahydrate (Mahapatra, Prasad) 305
Solvation of AgBr,
theoretical contribution of solvation of AgBr in some organic solvents at 25 °C (Gomaa) 99
Substituted pyridines,
thermal decomposition of solid complexes of cadmium chloride with substituted pyridines (Masuda et al.) 225

Tetracyano complexes of some transition metals,
kinetics of thermal decomposition of the tetracyano complexes of some transition metals containing the $[R_3S]^+$ cation (Györyová, Skoršepa) 1
Thallium(III) malate trihydrate,
thermal decomposition of the malato-aquo complex of thallium(III): the mechanism of thermal dehydration of thallium(III) malate trihydrate (Khadikar, Sapre) 55
Transition metal carbonyl complexes,
thermal degradation of transition metal carbonyl complexes. Part III. Thermogravimetric and differential scanning calorimetric studies of triphenylphosphine pentacarbonyls of chromium, molybdenum and tungsten (Hor et al.) 175
Triglycidyl-*p*-aminphenol,
kinetics of thermal degradation of cured epoxy resins based on triglycidyl-*p*-aminophenol (Patel et al.) 149
Triphenylphosphine pentacarbonyls,
thermal degradation of transition metal carbonyl complexes. Part III. Thermogravimetric and differential scanning calorimetric studies of triphenylphosphine pentacarbonyls of chromium, molybdenum and tungsten (Hor et al.) 175

Uranyl fluoride,
activation energy studies on complexes of uranyl fluoride with amidic ligands (Carstens et al.) 237

VALTER,
VALTER, a computing program for automatic thermometric titrations (Cerdá et al.) 9
Vapour–liquid equilibrium,
vapour–liquid equilibrium and solid–liquid equilibrium in the system formed by 1-octanol and n-octane (Plesnar et al.) 93

Y-Type zeolites,
mass spectral studies on the thermal desorption of aliphatic amines from the surface of Y-type zeolites (Jasra et al.) 115

CONTENTS

Kinetics of thermal decomposition of the tetracyano complexes of some transition metals containing the $[R_3S]^+$ cation
K. Györyová and J. Skoršepa (Košice, Czechoslovakia) 1
VALTER, a computing program for automatic thermometric titrations
V. Cerdá, M.T. Oms, A. Alvarez-Ossorio, X. Lumbiarres, R. Forteza (Palma de Mallorca, Spain) and G. Ramis (Valencia, Spain) 9
A comparative study of a kinetic–thermometric method and the atomic absorption cold vapour technique for determination of mercury traces and ultratraces
M.D. Mateo, R. Forteza, V. Cerdá (Palma de Mallorca, Spain), M. Baucells, G. Lacort and M. Roura (Barcelona, Spain) 21
The thermodynamic properties of cesium metaborate $CsBO_2$ from 5 to 1000 K
E.H.P. Cordfunke, R.J.M. Konings (Petten, The Netherlands) and E.F. Westrum, Jr. (Ann Arbor, MI, U.S.A.) 31
A new parameter to evaluate nucleation in glasses from DTA curves
F. Branda, A. Marotta and A. Buri (Naples, Italy) 39
Use of the "shape factors" as an empirical method to determine the actual characteristic temperatures of binary phase diagrams by differential scanning calorimetry
R. Courchinoux, N.B. Chanh, Y. Haget (Bordeaux, France), E. Tauler and M.A. Cuevas-Diarte (Barcelona, Spain) 45
Thermal decomposition of the malato-aquo complex of thallium(III): the mechanism of thermal dehydration of thallium(II) malate trihydrate
P.V. Khadikar and N.S. Sapre (Indore, India) 55
Interpretation of the dependence of the effective values of kinetic parameters on the degree of transformation
S.V. Vyazovkin and A.I. Lesnikovich (Minsk, U.S.S.R.) 69
The behaviour of some cobalt, nickel and copper amino acid complexes at different temperatures
M.S. Masoud, B.A. Abdel-Nabby (Alexandria, Egypt), E.M. Soliman and O.H. Abdel-Hamid (Minia, Egypt) 75
Thermodynamic and spectrophotometric studies of acetoacetanilidehydrazone complexes of Cu(II), Ni(II) and Co(II) metal ions
M.S. Abdel Moez, B.A. El-Shetary, M.F. Eid and F.I. Zidan (Cairo, Egypt) 81
Vapour–liquid equilibrium and solid–liquid equilibrium in the system formed by 1-octanol and n-octane
Z. Plesnar, P. Gierycz and A. Bylicki (Warsaw, Poland) 93
Theoretical contribution of solvation of AgBr in some organic solvents at 25 °C
E.A. Gomaa (Salālah, Oman) 99
Comparative study of the redox reactions between iodine and phenol derivatives, through correlation between thermal analysis and thermodynamic calculations from kinetic data
M.A. Zayed and F.A. Nour El-Dien (Giza, Egypt) 105
Mass spectral studies on the thermal desorption of aliphatic amines from the surface of Y-type zeolites
R.V. Jasra, B.D. Bhatt, V.N. Garg and S.G.T. Bhat (Vadodara, India) 115
Thermal analysis of some cyano compounds. Part II. Thermal behaviour of mixed $KLnFe(CN)_6 \cdot 4H_2O$ (Ln = La(III), Ce(III), Nd(III))
D. De Marco (Messina, Italy) 127
Kinetic study of thermal degradation of guar gum esters
S.P. Patel, R.G. Patel and V.S. Patel (Gujarat, India) 141
Kinetics of thermal degradation of cured epoxy resins based on triglycidyl-*p*-aminophenol
R.D. Patel, R.G. Patel and V.S. Patel (Gujarat, India) 149

Thermodynamic and kinetic consequences of isomeric interplay
Z. Slanina (Sapporo, Japan) 157
Thermal degradation of transition metal carbonyl complexes. Part III. Thermogravimetric and differential scanning calorimetric studies of triphenylphosphine pentacarbonyls of chromium, molybdenum and tungsten
T.S.A. Hor, H.S.O. Chan, C.S.M. Chiam and Kok Hwa Lim (Kent Ridge, Singapore) 175
Analysis of irreversible complex chemical reactions and some observations on their overall activation energy
R.K. Agrawal (Irwin, PA, U.S.A.) 185
Thermodynamics of binary mixtures of alkanone–chloroalkane. I. Heat of mixing of n-alkanone–1-chlorohexadecane mixtures at 298.15 K
I. García, J.C. Cobos, J.A. González and C. Casanova (Valladolid, Spain) 209
Designed experiment for polyethylene crystallization by DSC
D.L. Wilfong and K.D. Kotnour (St. Paul, MN, U.S.A.) 215
Thermal decomposition of solid complexes of cadmium chloride with substituted pyridines
Y. Masuda, T. Suzuki, T. Yamada and K. Sawada (Niigata, Japan) 225
Activation energy studies on complexes of uranyl fluoride with amidic ligands
P.A.B. Carstens, T.P. Knoetze and C.P.J. van Vuuren (Pretoria, South Africa) 237
Quasi-static study of the glass transition of glycerol by DSC
P. Claudy, J.C. Commerçon and J.M. Létoffé (Villeurbanne, France) 251
Complexing ability of pesticides and related compounds. Thermodynamic parameters for the formation of H^+, Na^+ and Ca^{2+} complexes with 2,4-dichlorophenoxyacetate in aqueous solution at different temperatures and ionic strengths
A. Casale, A. De Robertis and C. De Stefano (Messina, Italy) 261
Biological thermodynamic data for the calibration of differential scanning calorimeters: heat capacity data on the unfolding transition of ribonuclease A in solution
F.P. Schwarz and W.H. Kirchhoff (Gaithersburg, MD, U.S.A.) 267

Notes
Estimation of the pre-exponential factor in the isoconversional calculation of effective kinetic parameters
S.V. Vyazovkin and A.I. Lesnikovich (Minsk, U.S.S.R.) 297
Thermogravimetric studies on the addition compounds of cobalt and nickel dithiophosphinates with picolines and acetylpyridines
R.N. Mukherjee, S. Shankar and B.B.S. Shastri (Bombay, India) 301
Solid-state hydrolysis of iron(II) sulphate heptahydrate
S. Mahapatra and T.P. Prasad (Bhubaneswar, India) 305
The thermal decomposition of nagyagite
I.L. Botto and I.B.A. Schalamuk (La Plata, Argentina) 311
